

Orthomed

Manufacturer and Supplier of
High Quality, Innovative Veterinary
Orthopaedic Products

Orthomed products are seen as ground breaking, innovative, radical even, copied often, but never bettered, and this is how we plan to keep it!

Our passion is our strength. Every product is designed, developed and manufactured by people who are wholly committed to bringing the most technically advanced, yet user friendly products to market.

The products in our portfolio are cutting edge, yet simple to use, and offered at a price that will bring procedures within the reach of every pocket. They are manufactured to exceptionally high quality standards, and backed up by training and support which is second to none.

We strive constantly to demonstrate our commitment to the veterinary industry, and the people who work in it.

- ✓ **Leaders in Innovation**
 - ✓ **High Quality Products**
 - ✓ **Surgical Training Workshops**
 - ✓ **Backed by Industry Experts**
 - ✓ **Aftersales Support**
 - ✓ **Advanced Ongoing R&D**

About Orthomed

Meeting and exceeding medical gold standards

For over ten years, we have been developing, manufacturing and distributing a range of technically advanced implants and instruments which are engineered to simplify the most complex surgeries, underpinned by service, support and training which empowers specialists, general practitioners and first opinion vets to carry out gold standard surgical procedures.

Our product portfolio includes some of the most innovative orthopaedic products and systems available to the veterinary industry: including products such as MMP OrthoFoam™, SOP™ and RidgeStop™. Product development is carried out by bio-mechanical engineers and material scientists, who work with world renowned orthopaedic surgeons, all driven by the desire to bring to market products which break new ground whilst meeting and exceeding medical gold standards for surgical equipment.

We believe that the sale is just the first part of the journey; our customers are supported for life by a multi-faceted service offering which includes hands-on surgical training workshops, pre and post surgery advice and support, and access to a wide range of educational tools.

We are inspired by groundbreaking engineering, and satisfied only by enabling the best possible outcome for surgeon, patient and owner. Orthomed is a truly global company, headquartered in the UK, with offices in Europe, Australasia, North America and South Africa

Further Support

Everything you need at hand

We consider that providing exceptional technical support to customers is a fundamental part of our business.

The relationship with customers doesn't end when the invoice is settled – every customer is guaranteed a level of support which will enable them to achieve the best outcomes using the implants and instruments that they have purchased.

In addition to email/telephone technical support, we have a vast range of support materials, developed to provide users with tips and techniques which will revolutionise their surgical technique.

These are provided in a variety of mediums, allowing surgeons to select the one which best suits their learning style; Videos, Animations and Webinars provide a high-tech option for the tech savvy individual, with Study papers, Case studies and downloadable templates providing a more traditional option.

We can also provide direct access to global Orthomed advocates; experienced surgeons and users of Orthomed products, who are ready and willing to offer expert advice and opinions.

Customers benefit from:

- ✓ User Guides
- ✓ Templates
- ✓ Case Studies
- ✓ Webinars
- ✓ Technical Support
- ✓ Customer Service

Orthomed around the world

Supporting all of our customers

Although Orthomed was born and bred in the UK (and is very proud of its Britishness!), our desire to bring innovative implants to the wider veterinary community has resulted in swift expansion across the globe.

Orthomed currently has sister companies in the USA, Australia, Germany, Italy, Spain and Portugal, and South Africa, and this is just the start of our global expansion plans.

Overseas customers do not need to visit the UK to take advantage of our educational offerings – they will find themselves just as well catered for as their British counterparts, with workshops taking place in each of these countries. Although, they will of course be warmly welcomed if they choose to visit the UK and take part in a workshop on Orthomed's home soil...
